SKIN RESEARCH®

PRODUCT GUIDE

Introduction

Thank you for choosing from the Jan Marini Skin Research (JMSR) product range.

Jan Marini, founder and CEO of JMSR, has devoted more than three decades to research and development of the cutting-edge technologies used in our products. Over the years, the company has established a portfolio of proprietary formulas that reflect its ongoing commitment to be the preeminent developer of skin care products that produce measurable results and benefits. She has also formed associations with some of the world's leading physicians and research scientists. As a respected international skin care authority, Jan Marini continues to lead JMSR, and the industry at large, to new heights.

Jan Marini Skin Research products are available from trained skin care professionals. Once a client has been advised by a trained specialist, most JMSR products can be used at home. If you have any questions about the product range or if there's anything you want to improve about the condition of your skin please contact your skin care professional.

The Jan Marini Skin Research Skin Care Management System

The Skin Care Management System was designed for prolonged use with little to no irritation or acclimation. Using the 5-step System is easy and intuitive. Immediately feel the difference from the first application. Skin will appear noticeably smoother and healthier.

By following the 5-step regimen daily, results will be sustained and improved.

1 Cleanse	2 Rejuvenate	3 Resurface	4 Hydrate	5 Protect
Our cleansers encourage a soft, smooth and more refined skin texture.	Vitamin C & DMAE Complex improve the appearance of wrinkles, skin firmness and create a lifted, radiant look.	Dynamic ingredients target textural concerns and provide multifaceted resurfacing benefits. A second resurfacing product* can be applied to improve the appearance of pigmentation and sun damage. *Available only in Plus & MD Systems.	Versatile solution regulates moisture content, guards against inflammation and greatly enhances skin rejuvenation.	Broad spectrum UV protection from the sun's harmful rays. Microscopic sponge encapsulation system provides a silky matte surface that does not feel heavy or oily.

SKIN CARE MANAGEMENT SYSTEM MD
NORMAL/COMBINATION SKIN

The 5-step system utilizes patented technology to progressively improve the appearance of common skin concerns such as fine lines and wrinkles, acne, redness and discoloration.

JANMARINI

Cleanse

Bioglycolic Facial Cleanser

Our most popular daily cleanser gently cleans and exfoliates the skin without drying

Bioglycolic Facial Cleanser with glycolic acid is a gentle cleanser that encourages a soft, smoother and more refined skin texture. This formula is soap-free, non-irritating, and rinses completely without the need for a post-cleansing toner or astringent. Bioglycolic Facial Cleanser also contains sorbitol, a natural humectant derived from berries, which leaves the skin soft and hydrated.

- Excellent cleanser for all skin types
- Paves the way for increased penetration of additional products
- Contains glycolic acid as a follicular cleansing aid and resurfacing agent
- Enhances the benefits of other glycolic acid products
- Thorough and deep cleansing action
- Excellent for acne-prone skin
- Naturally derived humectants leave skin soft and hydrated

Key Technologies

- Glycolic Acid

Directions for Use: *Use on dry skin an amount about the size of a ten pence piece over the face and neck area. Massage gently, water may be added at this point. Using tepid water on a clean, wet facecloth remove all traces of product from face and neck. Rinse face and neck well, 15-20 times with clean, tepid water. Blot dry. Use morning and evening. Do not use as an eye make up remover.*

Size: 237ml

Catalogue Number: **BL100**

Skin Types: All

Bioglycolic Oily Skin Cleansing Gel

A deep follicular cleansing agent that provides extra benefits for extremely oily/problem-prone skin

Bioglycolic Oily Skin Cleansing Gel is a deep follicular cleansing agent that provides extra benefits for extremely oily/problem-prone skin. Our gel-based formula lathers well and leaves skin feeling super clean and soft. With continued use, your skin will appear less oily with a smoother, more refined texture.

- Provides the benefits of glycolic acid and targets excessively oily skin
- Lathers well and leaves skin feeling exceptionally clean and soft
- Helps to clear the appearance of acne lesions
- Enhances the benefits of other glycolic acid products
- Skin appears less oily with a smoother, more refined looking texture

Key Technologies

- Glycolic Acid
- Gel-based Formula

Directions for Use: *Use on dry skin an amount about the size of a ten pence piece over the face and neck area. Massage gently, water may be added at this point. Using tepid water on a clean, wet facecloth remove all traces of product from face and neck. Rinse face and neck well, 15-20 times with clean, tepid water. Blot dry. Use morning and evening. Do not use as an eye make up remover.*

C-ESTA Cleansing Gel *Containing DAE Complex*

A potent Vitamin C skin cleanser suitable for any skin type with a luxurious lather that results in a noticeably softer skin texture

C-ESTA Cleansing Gel containing DAE Complex complements the use of C-ESTA facial products. C-ESTA Cleansing Gel produces a luxurious lather and encourages a noticeably softer, smoother more refined skin texture. Excellent for use after chemical peels, Laser resurfacing, or when cleansers containing glycolic acid may not be appropriate. Also removes eye makeup.

- Vitamin C with a neutral pH provides anti-inflammatory properties making it an excellent cleanser for use after laser resurfacing, chemical peels or when a non-glycolic acid cleanser is preferable
- Luxurious foam lather – excellent for shaving
- Prepares skin to be more receptive to the application of other C-ESTA products

Key Technologies

- Ascorbyl Palmitate (Vitamin C)
- DMAE
- Antioxidants
- Plant Extracts

Directions for Use: *This cleanser is very concentrated. Use a small amount in the palm of the hand. Apply to wet or dry skin, the use of more water will produce a lather. Massage gently over face. Use a clean, wet facecloth to remove all traces of product. Splash skin 10-15 times with tepid water and towel dry.*

Size: 237ml

Catalogue Number: **CE105**

Skin Types: All

Age Intervention Gentle Cleanser

A mild cleanser for sensitive skin

A mild cleanser for the eye area and sensitive skin. Its non-foaming cream is also an effective eye makeup remover. After undergoing a procedure, Age Intervention Gentle Cleanser can be used for cleaning sensitive skin without causing the stinging associated with more conventional cleansers.

- Mild formula perfect for eye area and sensitive post-procedural skin
- Effective eye makeup remover
- Gentle enough for multiple daily usage
- Does not irritate skin

Key Technologies

- Antioxidants
- Plant Extracts
- Non-Foaming, Hydrating Cream Base
- Excellent cleanser for use after laser resurfacing, chemical peels or whenever a gentle cleanser is preferable
- Ideal size to complement the Skin Care Management System™ for pre/post procedure solution
- Good for multiple daily use delicate skin (eyes, etc.)

Directions for Use: *Use in the morning and evening. Gently massage a dime-size amount of cleanser over wet or dry skin. Add lukewarm water to lather. Remove with a clean, wet and wrung-out washcloth. Splash face 10-15 times with lukewarm water. Blot dry.*

Size: 119ml Bottle

Catalogue Number: **HM116**

Skin Types: All

Rejuvenate

C-ESTA Serum Containing DAE Complex

This combination of Vitamin C and DMAE lifts & tightens the appearance of facial contours

C-ESTA Serum containing DAE Complex creates conditions in the skin that enable dramatic rejuvenation. Your skin's texture will quickly begin to appear smoother and suppler. With continued use, it will appear firmer, more resilient, and facial contours will appear tighter and more defined. Deeper lines will appear far less pronounced, and your skin will look more even-toned, younger and healthier.

- Lipid soluble Vitamin C increases skin absorption
- Stable form of Vitamin C for increased shelf-life and efficacy
- Encourages increased Vitamin E production in the skin
- Neutral pH provides skin soothing
- Increases skin elasticity and resiliency
- Skin will appear measurably firmer
- Facial contours will appear tighter and more defined
- Overall appearance of more youthful and rejuvenated

Key Technologies

- Ascorbyl Palmitate (Vitamin C)
- DMAE
- Hyaluronic Acid
- Other Vitamins (B,E)

Directions for Use: *Shake bottle well. Always apply C-Esta products to clean, dry skin. Use a small amount twice a day over entire face, neck and behind ears, up to eye lash line and over brow bone.*

NB: It is normal for Serum colour to darken in time. This does not affect the performance of the product. Protect product from direct heat/sunlight.

Size: 30ml Catalogue Number: **CE100** Skin Types: All

Professional Size 237ml. Catalogue Number: **BB100**

C-ESTA Serum Oil Control Containing DAE Complex

Extraordinary Anti-aging Benefits with Remarkable Oil Control Properties

C-ESTA Serum Oil Control containing DAE Complex provides exceptional long-lasting oil control. Your skin will look soft and radiant, and the texture will appear smoother and more supple. With continued use, your skin will become measurably firmer and more resilient, appear younger and healthier, and facial contours will appear tighter and more defined.

- Non-comedejnic formula
- Increases skin elasticity and resiliency
- Stable form of Vitamin C for increased shelf-life and efficacy
- Light, completely absorbed formulation
- Encourages increased Vitamin E production in the skin
- Neutral pH provides skin soothing
- Increases skin elasticity and resiliency
- Skin will appear rejuvenated and more youthful
- Facial contours will appear tighter and more defined
- Overall appearance of the skin will appear rejuvenated and more youthful

Key Technologies

- Ascorbyl Palmitate (Vitamin C)
- DMAE
- Microscopic Oil Absorbing Particles
- Green Tea Extract

Directions/Suggested Application Techniques:

1. *C-Esta Oil Control can be applied in place of regular C-Esta, as usual in the morning or before applying make-up. Apply sparingly, after cleansing, to entire face, neck and behind ears. Massage in thoroughly. Apply remainder of programme as usual.*
2. *C-Esta Oil Control can be applied over other products before sunscreen. Apply sparingly to the appropriate areas and massage in thoroughly.*
3. *C-Esta Oil Control can be applied in spots or areas. For example, on the T-Zone over sunscreen or just on the nose or forehead, etc. over sunscreen. Apply sparingly to the appropriate areas and massage in thoroughly.*
4. *C-Esta Oil Control can be used on oily upper eyelids in order to enhance eye shadow wear and prevent creasing. Apply sparingly, being extremely careful not to get product into eyes.*
5. *C-Esta Oil Control can be used on lips and around lips in order to enhance lipstick wear and lessen lipstick 'bleeding'.*

Size: 30ml. Catalogue Number: **CE108** Skin Types: Oily

Bioglycolic Bioclear Cream and Lotion

A powerful combination of acids that addresses a variety of skin concerns while leaving skin dramatically smoother, clearer, luminous, hydrated and more refined

Bioclear has remarkable anti-aging and skin resurfacing properties and is also especially beneficial for adult acne. If you are concerned about common skin issues such as fine lines and wrinkles, acne, rosacea, acne scarring, large follicles and skin texture changes, Bioclear is an exceptional solution.

- Combination of acids is comprehensive in helping to address multiple skin concerns.
- Increases transport and penetration of other product technologies for enhanced improvement
- Light lotion texture is rapidly absorbed leaving the skin with a soft, silky texture
- Resurfaces skin for a dramatically softer and smoother looking texture
- Significantly lessens the appearance of fine lines and wrinkles
- Overall skin hydration is increased
- Increased skin luminosity
- Evens the appearance of skin tone

Key Technologies

- Glycolic Acid
- Salicylic Acid
- Azelaic Acid
- Antioxidants
- Plant Extracts

Directions for Use: *Cleanse the skin thoroughly before applying. Apply every night for the first week, then increasing to twice daily in second week. The user should be aware that they are likely to experience mild stinging initially and may also experience temporary redness and flaking. If redness or flaking is extreme use every other night progressing to once daily, then twice daily.*

Bioglycolic Cream

Moisturising and Resurfacing Agent for All Skin Types

Bioglycolic Cream is a highly moisturising resurfacing agent that includes a unique barrier emollient to help retain moisture. In addition, the benefits of glycolic acid have been greatly enhanced by incorporating a unique phytoamine bio-complex along with hyaluronic acid. Our advanced formula will achieve results previously beyond the scope of glycolic acid.

- Leaves the skin with a silky, soft, glowing finish
- Resurfaces skin for a dramatically softer and smoother texture
- Significantly lessens appearance of the fine lines and wrinkles
- Evens skin tone

Directions for Use: *Apply sparingly to facial and neck area, avoiding eye area. Use at night for first week, thereafter morning and night if required.*

Clean Zyme and Skin Zyme Enzyme Therapy

Proteolytic enzymes gently resurface to reveal healthy, smooth and polished skin

Enjoy beautifully refined and glowing skin! Clean Zyme and Skin Zyme proteolytic enzyme supplemental home care exfoliation products can digest dead skin cells without harming sensitive or irritated tissues. Benefits of other resurfacing agents are dramatically accelerated and desired results are more rapidly obtained regarding the appearance of skin rejuvenation, acne, hyperpigmentation and scar reduction.

- Proteolytic enzymes selectively break down dead and damaged skin cells
- Resurfacing without irritating sensitive skin
- Great for use post-procedure and on flaking/peeling skin
- Helps reduce follicular retention to aid in clearing acne
- Can be used regularly for smoother, more refined skin

Key Technologies

- Proteolytic Enzyme - Papain from Green Unripened Papaya

Directions for Use: *Usage can range from one to four times a week. In the evening Clean Zyme should be used in place of regular cleanser. Leave on skin for one to two minutes and then remove with clean, lukewarm water. Blot face dry and then apply Skin Zyme in a thin layer over entire neck and face, avoiding eye area. Remove after approximately 10 minutes. As usage is increased Skin Zyme may be left on skin for up to 20 minutes. Always remove Skin Zyme with a small amount of Clean Zyme. Massage gently. Remove with clean, wet facecloth. Splash face 10-15 times with tepid water. Blot dry. Follow with normal routine.*

Age Intervention Eye Cream

Our most popular anti-aging eye cream. Reduces the appearance of wrinkles for an ultra-smooth eye contour

Age Intervention Eye Cream is a spectacularly effective formula that delivers amazing results. For ultra smooth, contoured-looking eyelid skin that appears flawlessly ageless, Age Intervention Eye Cream is a must-have formula. Remarkable benefits are delivered by a patented Peptide/Retinol combination plus supporting additives. Results are visibly exciting and objectively measurable.

- Excellent eye cream with corrective properties
- Dramatic reduction in the appearance of fine lines and wrinkles
- Results in smoother more supple skin
- Improved skin tone and texture
- Increased hydration
- Eye area will look noticeably firmer and more defined

Key Technologies

- Peptides: Myristoyl Pentapeptide-8 and Myristoyl Tetrapeptide-12
- All-Trans-Retinol
- Hyaluronic Acid
- Green Tea Extract
- CoEnzyme Q10
- Essential Fatty Acids

Directions for Use: *Apply sparingly morning and evening to lower eyelids and across brow bone.*

Size: 14g

Catalogue Number: **HM104**

Skin Types: All

Transformation Eye Cream

A combination of growth factors and peptides visibly improves texture and restores hydration around eyes while helping prevent future damage

Transformation Eye Cream targets the thinner, more age-prone eye area to dramatically lessen the visible signs of aging. This is a highly emollient formula that provides unique lubrication and hydrating factors that bond to the area surrounding the eyes. This bonding action enables the thinner eye area skin to resist creasing and to visibly improve eyelid skin texture.

- Excellent all around eye cream
- Ideal for post-procedure due to healing and repairing properties
- Dramatically benefits the thinner age-prone eye area
- Unique lubricating and hydrating factors bond to skin surrounding the eye area, enabling delicate skin to cope with movement and environmental exposure

Key Technologies

- TGF -1 (transforming growth factor)
- Vascular Endothelial Growth Factor
- Thymosin 4 (sh-Oligopeptide-4)
- Peptides: Myristoyl Pentapeptide-8 & Myristoyl Pentapeptide-11
- Antioxidants
- Plant Extracts

Directions for Use: *Apply morning and evening. Gently pat over lower eyelid and on upper eyelid down to eyelid crease. NB Transformation Eye Cream may also be used over C-Esta Eye Creams.*

Size: 14g

Catalogue Number: **TL102**

Skin Types: All

C-ESTA Eye Repair Concentrate

Highly concentrated Vitamin C combined with DMAE promotes a visibly tighter, firmer eye contour

C-ESTA Eye Repair Concentrate containing DAE Complex rejuvenates the thinner wrinkle prone eye area and minimizes further signs of aging. This intensive formula counteracts many visible aging changes by promoting a tighter, firmer more resilient eye area.

- Provides lifting, firming and tightening of eye skin
- Lipid soluble Vitamin C increases skin absorption
- Stable form of Vitamin C for increased shelf-life and efficacy
- Measurably reduces the appearance of fine lines and wrinkles
- Promotes a noticeably tighter, firmer, more resilient looking eye area
- Encourages collagen production
- Creates optimal conditions for exceptional skin rejuvenation

Key Technologies

- Ascorbyl Palmitate (Vitamin C)
- DMAE
- CoEnzyme Q10
- Hyaluronic Acid
- Essential Fatty Acids

Directions for Use: *Using ring finger apply very sparingly to lower eyelids and upper eyelids, down to the crease only. Apply morning and evening to clean, dry skin. NB Protect product from direct heat/sunlight. It is normal for Cream to darken in time. This does not affect the performance of the product.*

Size: 14g Catalogue Number: **CE106** Skin Types: All

Size: 7.4ml Catalogue Number: **HM110**

Size 2.46ml Catalogue Number: **HM110S**

C-ESTA Lips *Containing DAE Complex II*

For Fine Wrinkling and Vertical Lip Lines

C-ESTA Lips is the first medically-based product that actually improves the appearance of the aging and sun damaged lip area. The C-ESTA Lips formula is based on two primary modes of action: lipid soluble Vitamin C and DAE Complex. C-ESTA Lips also contains proprietary topical agents that reduce the appearance of vertical lip lines (bleed lines), and help plump and define lip contours.

- Smoother, softer, more hydrated lips
- Lips will appear plumper and more defined
- Assists in preventing lipstick “bleed” extends lipstick wear
- Continued use dramatically reduces or resolves the appearance of vertical lip lines and other age or sun-induced damage

Key Technologies

- Tyrosine
- Ascorbyl Palmitate (Vitamin C)
- DMAE
- CoEnzyme Q10

Directions for Use: Apply to clean, dry skin twice daily. Massage over lips and surrounding area. Assists in preventing lipstick “bleed” and extends lipstick wear.

Size: 14g
